<b>Program Description (written by Provider)</b>  We provide one-on-one tutoring in all subjects for children ages Pre K-12. Each session is 50-60 minutes of one-on-one instruction. Our current instructional materials include the <i>Sonday System</i> for Reading and the <i>Saxon Math Program</i> . Our pre-test is directly tied to our curriculums. Based on this, we develop a learning plan that details the objectives for each student, the definitions for mastery and the interventions to be implemented.	
<b>Evidence of Effectiveness (written by Provider)</b>  We have provided supplemental tutoring for Reading and Writing for student ages K-12. Every student that finished our program showed growth in at least one of the subjects. Many students improved by a full grade level in math. One student's post test showed a growth of five grade levels. 95% of our students reached their goals set at the beginning of this year.
